DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114.

Claims 1, 2, 5-12, 20-22, 27-31 and 35 are pending in the application.

This action is in response to applicants' amendment dated June 3, 2010. Claims 2 and 11 have been amended

Response to Amendment

Applicant's arguments filed June 3, 2010 have been fully considered with the following effect:

- The applicants' amendments are sufficient to overcome the obviousness-type double patenting rejection of claims 1, 2, 5-12, 20-22, 27-31 and 35 labeled paragraph
 over U.S. Patent No. 7,544,700 maintained in the last office action, which is hereby withdrawn.
- The applicant's amendments and arguments are sufficient to overcome the 35
 U.S.C. § 112, second paragraph rejections, labeled paragraph 3g), h), l), t), u), x), bb), hh), ii) and nn) maintained in the last office action, which are hereby withdrawn.
- The applicant's amendments and arguments are sufficient to overcome the 35
 U.S.C. § 112, second paragraph rejections, labeled paragraph 8d) and k) maintained in

the last office action, which are hereby **withdrawn**. However, with regards to the 35 U.S.C. § 112, second paragraph rejections, labeled paragraph 8j) maintained in the last office the applicant's amendments and arguments have been fully considered, however they were not found persuasive.

j) The applicants' stated that the term "hydroxypiperidine" refers to a compound of Formula (I), wherein L^1 and L^2 are both H, and R^8 is OH. However, the compound is such that the OH is bond to the piperidine in the 4-position of which only the variables L^1 and L^2 can occupy, i.e.

4-chloro-N-({5-[(4-hydroxypiperidin-1-yl)sulfonyl]thien-2-yl}methyl)benzamide

Claim 11 recites the limitation "hydroxy" in the definition of L¹ and L².

There is insufficient antecedent basis for this limitation in the claim. See the 8th species on page 11.

In view of the amendment dated June 3, 2010, the following new grounds of rejection apply:

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1624

4. Claim 11 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The following reasons apply:

 Claim 11 recites the limitation "4-(hexyloxy)piperidin-1-yl" in the 4th species on page 26, i.e.

4-chloro-N-({5-[(4-hexyloxypiperidin-1-yl)sulfonyl]thien-2-yl}methyl)benzamide

There is insufficient antecedent basis for this limitation in the claim.

Claim Objections

 Claim 12 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Art Unit: 1624

Allowable Subject Matter

6. Claims 1, 2, 5-10, 20-22, 27-31 and 35 are allowed. None of the prior art of record or a search in the pertinent art area teaches the compounds, compositions and process of preparing the sulfonamide compounds of formula I as claimed herein.
